VOL. XXIV. NO. 99 GAINESVILLE, FLORIDA, MONDAY, JULY 10, 1905 ONE DOLLAR A YEAR

WITH AN ENTHUSIASTIC DEMONSTRATION
GAINESVILLE CELEBRATES HER VICTORY

...ever the people of Gainesville were happy and enthusiastic it was ...rsday night and Friday, when the news came that this city had been successful in securing the location of the State University. This enthusiasm was not confined to any particular class, but was general, embracing male and female, white and colored, of all ages.

The information came about 12 o'clock Thursday night. It was in the shape of a telegram from Mayor W. R. Thomas, chairman of the committee, and bore the simple announcement:

"Gainesville wins the University by a vote of 6 to 4."

This message was brief, but it was sufficient to kindle the fire of enthusiasm in the heart of every living human in Gainesville, and it was surprising how quickly the news spread. In less than an hour the cannon was booming, the church bells were ringing, whistles were screaming, all of which told the people of the wonderful victory, accomplished after a long and faithful fight on the part of the citizens and the committee.

Report of Proceedings.

The following report from Tallahassee will prove of interest, since it gives a clear and concise insight into every movement of the board and those who were working for the location of the University:

It looked like a regular session of the Legislature when Governor Broward, chairman of the joint Boards of Control and of State Education, called the open meeting to order at 10 o'clock Thursday in the Hall of Representatives. Members of the two boards occupied seats in front of the rostrum, and nearly all of the seats within the bar were occupied by representatives of Gainesville and Lake City. The gallery outside the bar was occupied by interested listeners.

Governor Broward announced that the boards were ready to hear from the representatives of the two cities, candidates for the location of the University of the State of Florida. He suggested that if a plan had not already been adopted it would be well for the representatives of the two cities to agree upon opening and closing.

Hon. Robbrt McNamee, representing Gainesville, said that a plan for argument had already been agreed upon.

It was presumed that the burden of proof rested with Gainesville, and that Gainesville would open, in one and one-half hours, then two hours for Lake City, then half an hour for the closing argument in favor of Gainesville.

At this point Hon. W. A. Rawls of Tallahassee arose and asked if Tallahassee was to be shut out as a candidate.

Governor Broward said that the two boards did not know, or had not heard, that Tallahassee desired to present its claims, but if so the boards would be glad to hear argument.

Mr. Rawls then announced that Tallahassee's claims would be presented at the proper time.

McKinstry for Gainesville.

Dr. J. F. McKinstry of Gainesville, in a well prepared paper, presented his town's claim. Dr. McKinstry first stated why the University should be located at Gainesville. He spoke of its central location, its general educational spirit, its recognized moral environment, its progressive spirit in all things of a social, commercial and educational nature. He said that if the boards listened to the voice of the people of Florida the University would be located at Gainesville, for the reason that the great majority of the people of the State, school boards, county commissioners and influential organizations, favored Gainesville.

At the conclusion of Dr. McKinstry's remarks he read the following:

Gainesville's Alternative Proposition.

"To the Honorable State Board of Education and the Board of Control: Gentlemen—In the event that the University of Florida is located at Gainesville, we, the undersigned, hereby bind and obligate ourselves to donate and deed in fee simple to the State Board of Education, for the use of said University, (1) five hundred acres of land adjoining the said city of Gainesville, and, in addition thereto, to donate and turn over to said board $40,000 in cash; or (2) 320 acres of land, and, together with and in addition thereto, the 15 acres in East Gainesville, including the public school buildings and grounds; either the one or the other, as you may elect, and that the city of Gainesville will furnish water for the University without charge. And we further bind ourselves to give any guarantee you may require that, in the event the first proposition is accepted, to turn over to said Board of Control, free of charge, the use of the public school building of the said city of Gainesville, until such time as necessary new buildings have been completed.

"And we further bind ourselves to give any guarantee required that, in the event said University is located at Gainesville, the students of the same unable to secure accommodations at the barracks and dormitory shall be taken care of in the private houses of the city, at a rate not exceeding that charged by the State, until such time as the necessary buildings for their accommodation have been completed.

"In witness whereunto we hereby append our signatures this the 3rd day of July, in the year of Our Lord nineteen hundred and five.

"W. R. THOMAS,
"J. F. MCKINSTRY, JR.,
"PERRY M. COLSON,
"A. M. CUSHMAN,
"JOHN B. DELL,
"GEO. M. LYNCH,
"S. H. WINGES,
"W. N. WILSON,
"C. A. COLCLOUGH,
"Committee."

Lake City's Proposition.

Lake City went Gainesville one better in their proposition, insofar as the acreage of land was concerned. The committee representing that city offered 862 acres of land and $40,000 in cash, said land to be deeded to the State within three months from date, provided the University be located there.

Rev. Carpenter Speaks.

Rev. W. J. Carpenter, representing the Board of Education of the Florida Conference, next addressed the members of the joint boards in advocacy of the locating of the University at Gainesville. He spoke generally of Gainesville's claim, dwelling particularly upon the surroundings and the educational atmosphere of the community. Mr. Carpenter referred to the good moral influences of Gainesville, enumerating the many religious organizations. For the purpose of presenting Gainesville's claim as to central location and general popularity, Mr. Carpenter displayed a map, showing which counties had indorsed Gainesville, through county commissioners and other organizations, and also to show Gainesville's advantages as to central location. Mr. Carpenter said that he had traveled in fifteen counties of South Florida, and that he found 90 per cent preference for Gainesville wherever he went. He said that South Florida was coming to the front in population and prominence. He read figures to prove that South Florida paid $2 to $1 compared with West Florida, excluding Duval and Escambia counties. He produced figures to show that the State's money used at Gainesville had been most economically spent. During a certain period Gainesville had $151,000, against upward of $800,000 to Lake City. Mr. Carpenter's argument was Gainesville's general endorsement and advantages as against "gold and bricks and mortar."

Joseph H. Jones of Orlando.

Joseph H. Jones of Orlando followed in urging the claims of Gainesville. He prefaced his remarks with a supplementary proposition, guaranteeing the State of Florida the sum of $30,000 for the State buildings at Gainesville, should the University be located there. Mr. Jones urged the claims of Gainesville, first as to location and accessibility, then as to health, then as to personnel of Gainesville. Mr. Jones then referred in eloquent words to the culture, educational spirit, tradition and loyalty.

Referring to the loyal spirit of the Gainesvilleites, Mr. Jones referred to the supplemental proposition offering $30,000 for the State buildings at Gainesville. He said that this was brought about by a financial condition. He said that the State had failed to appropriate enough to tide the proposed work over for two years. It was understood that the present buildings at Gainesville were not as desirable as would be buildings located just outside the city. To aid in this financial matter Gainesville offered relief by pledging to buy the State buildings located in the city for the sum of $30,000.

Mr. Jones said that Gainesville had made a partial canvass of the State, and the answer had come back, "Give us Gainesville." Here he presented a large package of endorsements.

In closing Mr. Jones petitioned the board to consider well for environment, absence of faction and politics, and produce the best possible results. He asked them to look above commercialism and seek to obtain the improvement of manhood and of the elevating of good citizenship.

Mr. Jones exceeded his time, but the board extended the time alloted to each side to two and one-half hours. Mr. Jones' argument consumed all the time except forty minutes reserved for Hon. Robert McNamee to reply and close Gainesville's case.

Lake City's Champions.

Several prominent citizens of Lake City were present and presented their claims in a forceful and impressive manner, but evidently with insufficient force to convert the required majority of the board. Among those speakers were Hon. Frank Adams, A. B. Small, Chas. E. Davis and Judge Arch Henry.

W. A. Rawls, Hon. Fred T. Myers and Judge Raney spoke in favor of Tallahassee.

Col. McNamee Concludes.

The joint boards took a recess until 3 o'clock, when argument was resumed, Col. Robert McNamee of Tampa making the closing address in favor of Gainesville. Col. McNamee said, after a few remarks as to the meaning of the Buckman law, he would divest himself of his garb as a lawyer and address the boards as a citizen. He contended that the law did not contemplate that any one of the abolished institutions should remain where at present located. Under the provisions of the law, it might be located at Ocala, or any other place that might be selected by members of this joint board. He said, further, that the University could not be placed in Tallahassee, as it was not either centrally located nor was it the center of population. Mr. McNamee claimed that Gainesville was nearer the geographical center than Lake City. He also claimed and produced figures that the center of population, white and black, was nearer Gainesville than Lake City. He then discussed the needs and requirements. He argued that buildings and land must fall behind the needs and requirements of college environments, the expression of the people, and the matter as a business proposition. Mr. McNamee then referred to the petitions and resolutions from all over the State, and also the views of the State press. He did not think that the question of locating the University should be left to a primary where it might be pulled and hauled about, but he did know that the senders of telegrams and the signing of resolutions was an honest sentiment coming from the people and would there be considered. He claimed that an expression of the people was of great weight, and would be so considered by members of the boards. These people believe in equity and a school of the greatest benefit to their boys and girls.

Mr. McNamee wanted to know what South Florida was to get if all its institutions of instruction were wiped out after paying two-thirds the taxes. He wanted to know if West Florida or the cotton belt was to get anything. Was there not something to go to Gainesville, the educational center as well as geographical center of the State. Lake City advocates Lake City as the location of its buildings. Buildings are not students. Mr. McNamee then touched upon the educational atmosphere and other qualifications of Gainesville. For instance, he said that the Gainesville school had been operated for more than fifty years with $151,000, while in only two years the college and university at Lake City had expended $831,000. Mr. McNamee then took up and discussed situation, lands, buildings, equipment and other provisions. He contended that Gainesville offered the best situation, just outside the city, while in Lake City the situation was right in the city. He said that the board would have a beautiful piece of land, and with the $40,000 from the city and the $30,000 from the sale of the old buildings and land, would give the board $70,000, with enough to put the necessary buildings.

Meanwhile the present buildings could be used, as he not did think there would be more than 150 students during the first year.

Mr. McNamee suggested that the Deaf and Blind School be transferred to Lake City, as the buildings there, the chapel, the gymnasium and Foster hall would be exceedingly suitable for the blind and deaf.

Certified Checks.

At the conclusion of the argument Gainesville representatives delivered to the board certified checks to the amount of $40,000 and deeds to 317 acres of land.

Lake City's representative delivered a certified check for $40,000 and a guarantee of the delivery of the necessary deeds to the additional 871 acres of land. This closed the present action of claims of Gainesville and Lake City.

Executive Session.

In the evening at 8:30 o'clock the joint boards went into executive session, and just before the mid-night hour the result was announced, the vote standing 6 to 4 in favor of Gainesville.

In coming to a decision upon this momentous question, there is no doubt that both boards considered first the interests of the whole State. With them it is not believed that mere location or the value of present buildings carried so much weight.

OUR GRATEFUL THANKS.

To the Press and People of the State of Florida—Greeting:

We desire, on behalf of the good people of the city of Gainesville, to take this opportunity to express our deep gratitude to the press of the State for the free and generous manner in which it stood by our city in its effort to maintain supremacy as an educational center.

To the people who stood behind the press in its fealty to our city and its fair name, we owe a debt of gratitude that we can never repay, but will do our utmost to prove ourselves worthy in the years to come.

Without an unkind word to any we feel that a great victory has been won, and your hearty co-operation has made the victory possible.

A sacred trust has fallen to our city, and in all the varied changes of the coming years, in whatever position we may be called upon to act, we will ever hold next to Him on high, our duty to these institutions where the minds of our youth are to be moulded for the perpetuity of our State and the Nation.

That there has been no sacrifice of honor or trust to gain the object for which we strived, the people are well aware, and we shall prove in the years to come that there will be no betrayal of your confidence.

AGAIN WE THANK EACH AND EVERYONE OF YOU.

HOW WE KEPT THE DAY.

The Fourth of July Celebration at Island Grove.

Island Grove, July 5.—Perhaps no place in Florida the size of our little town had a more glorious celebration of that grand event which made our nation the most powerful of all nations than we had at this place on the Fourth. The people all turned out in full force to show their unswerving patriotism and love for the American flag that shields us beneath its protecting folds.

The program was beautifully and most impressively rendered.

The tree under which the speakers' stand was placed was draped in red, white and blue, and two flags were floating in the tree above.

The first number on the program was that old familiar song, "America," which was rendered by a number of clear young voices.

F. T. Baker, Sr., then read in a most impressive manner that old immortal document, "The Declaration of Independence," which, though often we may hear it, never fails to thrill us with admiration for our patriotic forefathers.

The young people then sang "The Star Spangled Banner," after which Mr. Wm. [illegible] was introduced and read very clearly an appropriate paper for the occasion.

Next on the program was a song, "Battle Hymn of the Republic," which was well rendered. Then came a march which was rendered to perfection by forty little boys and girls. The little ones by their ease and grace delighted the lookers-on and won for themselves great applause.

Mr. J. Whistler was then introduced as the orator of the day, and delighted his hearers with a most appropriate and well delivered address.

"Columbia" was then very impressively sung by the young people, after which the good ladies spread a most sumptuous dinner, and it is needless to say that this was one of the most enjoyable features of the day.

Ice cream was served free during the day, and the entire day was an unceasing flow of enjoyment to both old and young.

In the evening Mr. and Mrs. J. R. Shaw prolonged the enjoyment of the young people by tendering to them a social gathering which was much appreciated. Parlor games were indulged in till a late hour, when the young people took their departure, each voting Mr. and Mrs. Shaw charming entertainers.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. We kept on giving it and before she had taken the half of one small bottle she was well" This remedy is for sale by all druggists.

PARISIANS CHEER AMERICANS.

United States Soldiers and Marines Heartily Welcomed.

Paris, July 7.—The unusual sight of an detachment of United States sailors and marines swinging around the central thoroughfares of Paris today aroused great enthusiasm and brought out an enthusiastic welcome from the crowds along the line of march.

The American naval contingent numbering 500 men, with 25 officers, left Cherbourg in the two special trains at 3 o'clock this morning arrived at the Invalides road station at 11:40 a. m. In spite of the hard night the sailors and marines presented a fine appearance as they emerged from the station. They were uniformed as a landing party, wearing the regulation gaiters and carried rifles with fixed bayonets. A company of French infantry was drawn up fronting the station to receive the Americans. The latter formed in battalion and unfurled the American flag and naval ensign. At the same moment the French troops came to the salute, the French standard was dipped, the French band struck up the "Star Spangled Banner" and the great crowds which had surged across the Alexander bridge, shouted:

"Vive les Americans!" and "Vive La France!" the entire multitude cheering.

GAINESVILLE CELEBRATES HER VICTORY

(Continued from First Page).

was master of the situation when it was announced that members of the committee would arrive home via the Gainesville and Gulf Friday morning, and immediately the citizens began decorating with the University colors, orange and black. Handsome carriages, bicycles and vehicles of all kinds were literally covered, and several large United States flags were brought into service. Several hundred people, some in carriages, some on wheels and others afoot, assembled at the station and gave those of the committee who returned via this route a rousing reception. The crowd formed in procession and marched through the city, there being not less than half a hundred vedicles. The line of march was east on Liberty street to the court house square, around the square, then north on West Main to Mechanic, thence east to East Main, thence north on East Main to the girls' dormitory and the barracks, where the cannon was being fired. The church bells rang, and the whistles from the various mills and factories saluted the procession as it passed.

From the dormitory the crowd returned to the band stand, where they were favored with a few remarks by Perry M. Colson, a member of the committee. During his talk Mr. Colson was frequently interrupted by enthusiastic cheers. He paid a glowing tribute to Hon. W. R. Thomas, whom he declared to be the most loyal, earnest and faithful worker he had ever seen. "Our worthy mayor has worked hard," he declared, "and to his efforts more than to those of any other person is due this honor and this victory." Three healthy cheers for the mayor followed this assertion.

At the conclusion of Mr. Colson's remarks the assembly was dismissed with prayer by Rev. T. J. Nixon.

A few of the committee arrived at noon over the Seaboard, while the remainder, including Mayor Thomas, will arrive by the Gainesville & Gulf today.

The gentlemen who so successfully managed this campaign are as follows: W. R. Thomas, T. F. Thomas, P. M. Colson, W. W. Hampton, B. F. Hampton, V. B. Taylor, L. C. Lynch, Geo. M. Lynch, J. B. Dell, J. M. Dell, A. M. Cushman, Marcus Endel, Dr. J. F. McKinstry, Jr., Dr. J. Harrison Hodges, W. S. Broome, W. N. Wilson, S. H. Wienges and J. D. Stringfellow. A number of others have visited various sections of the State from time to time in the interests of the University, and the result of their labors has been proven. The people of Gainesville, regardless of petty differences, if any exist, were as a unit on the University matter, and on all matters pertaining to education they may be relied upon as one.

Reception This Evening.

From Saturday's Daily Sun.

The citizens will tender the committee a reception at the girls' dormitory, East Main street N., this evening, to which all are invited. Just one week ago—last Saturday evening, a reception was tendered the members of the State Educational Board and the Board of Control at the Dormitory.

NORMAL OPENS MONDAY.

Will be Conducted at Academic Hall, on East Main Street, N.

From Saturday's Daily Sun.

The State Board of Education and the State Board of Control have arranged for a Teachers' Summer Training School at the University of the State of Florida, to open July 10th. The following faculty will be in charge:

City Tax Assessments.

City Tax Assessor Bradford is alive to the interests of the city, as is shown by the returns he has made for the time he has been serving as assessor.

Mr. Bradford has already turned into the city the first of two books, which shows a total assessment of $675,000, which is $25,000 above last year's work. This book does not include the new territory embraced by the passage of the charter bill, and at the regular one-third value this would increase the assessment of the city property about $75,000 over the past year.

The total assessment last year was $650,000, which shows by the increase that the city is prospering.

Mr. Bradford expects to deliver the second book to the city on October 1st.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

Justice Colman's Court.

Lillie McMullen, colored, was arraigned in Justice Colman's court Thursday upon a charge of selling liquor in a dry county, and was placed under a bond of $200 for her appearance at the next term of the circuit court. The woman was arrested by Marshal Pinkoson, and the evidence surrounding the case was very strong.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1. Sold by W. M. Johnson.

BENJAMIN WILL REBUILD.

Will Erect at Once Fine Business Block on Site of Old Store.

S. H. Benjamin, whom it will be remembered had the misfortune on the early morning of the Fourth of July to lose his building and stock at Micanopy, will rebuild at once, if rumor is correct. Mr. Benjamin has enjoyed a fine business in Micanopy for many years, and he does not propose to relinquish his trade in that section.

Mr. Benjamin's loss, including the building, will reach in the neighborhood of $40,000. He had one of the handsomest stores in the county, and carried probably one of the largest stocks of general merchandise ever known in this section. His was a regular department store, and would have been a credit to any city.

While friends of Mr. Benjamin regretted very much his loss, they will feel glad that he is not discouraged, and that he proposes to resume business as soon as it is possible for him to complete the building.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

LEWIS WAS CAPTURED.

Man Who Shot and Wounded Henry Jackson Arrested and Put in Prison.

Deputy Sheriff G. W. Livingston of Newberry was in the city Wednesday. He brought Joe Lewis, alias Kid Shine, to prison to await the session of the fall term of the circuit court.

It will be remembered that Lewis became involved in a difficulty with Henry Jackson, colored, at the camp of W. M. Davidson, near Newberry, Saturday night, and emptied the contents of a gun into the shoulder and abdomen of Jackson. He made his escape, but was later arrested and arraigned before Justice Henderson, when he was placed under a bond of $500 for his appearance. In default of the bond he was committed to prison.

Jackson was not wounded as badly as was at first supposed, and was enabled to appear in court against his antagonist.

Makes the Liver Lively.

Orino Laxative Fruit Syrup gives permanent relief in cases of habitual constipation as it stimulates the liver and restores the natural action of the bowels without irritating these organs like pills or ordinary cathartics. Does not nauseate or gripe and is mild and pleasant to take. Remember the name Orino and refuse substitutes. J. W. McCollum & Co.

Election of Officers.

The following officers of the Patriotic Order Sons of America were elected at the last meeting:

H. Milliner, past president; F. P. Bullock, president; J. I. Prevatt, vice-president; J. B. Brooks, master of forms; T. P. Hitton, conductor; A. F. Harrod, recording and financial secretary; P. Y. Smith, guard; P. Y. Smith, trustee for eighteen months; A. F. Harrod, trustee for twelve months; T. P. Hitton, trustee for six months.

The order is growing in Gainesville, new members being received at almost every meeting.

Good for Stomach Trouble and Constipation.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns of Rat Portage, Ontario, Canada. "Being a mild physic the after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale by all druggists.

MAYOR THOMAS AND COLLEAGUES WERE GIVEN A WARM RECEPTION

They Were Met at Railroad Station by Enthusiastic Citizens.

FIFTY-ONE VEHICLES IN LINE

Besides a Half-Hundred Bicycles and Many Others Who Were Honoring the Party as Pedestrians—Speeches at Band Stand—The Reception.

The people of Gainesville were again in demonstration Saturday, and stronger than Friday if such a thing was possible, for fifty-one carriages and other vehicles, about fifty bicycles and a hundred or more pedestrians, were assembled at the station of the Gainesville & Gulf railroad to welcome the Honorable Mayor W. R. Thomas, Attorney Robert McNamee and W. N. Wilson, the remaining members of the committee of Gainesville workers who had remained over at Tallahassee in order to close all details of the transaction in the matter of settling the University question.

The carriages, buggies and wagons, as well as the bicycles, were decorated in the Seminary colors, orange and black, and buttonieres and lapel streamers were prominent on the persons of all those who participated in the parade, as well as ninety-five per cent of the people of the city, regardless of age, sex or color.

It was a disappointment that the mayor and his colleagues did not arrive Friday evening, as was at first expected, as it was desired to give them a torchlight demonstration the like of which had never before been known in this State; and it was learned with great regret at the supper hour that the party would not return until Saturday morning. However, several patriotic men and boys insisted on a demonstration, and paraded the streets with their glaring torchlights, shouting for Gainesville and the University at regular intervals.

When the Gainesville & Gulf train reached this city Saturday morning, three hearty and enthusiastic cheers went up for the mayor and his committee, and when the carriage which was specially waiting for this distinguished official and his guests, which was occupied by members of the mayor's family, entered and drove away, the crowd lined up in procession, and the line of march was begun, the route being the same as on Friday. The procession was headed by Alderman Benson and Marshal Pinkoson in a buggy, who bore a banner upon which was inscribed, "Our Mayor; God Bless Him."

After having driven to the Seminary barracks and dormitory, the procession proceeded to the band stand, where a hundred vigorous and enthusiastic voices called for Mayor Thomas.

Mayor Thomas Speaks.

In compliance with this call Mayor Thomas responded, and was greeted by cheers from a thousand voices. When this had died away he made a few remarks regarding the work of the committee in the matter of this great victory. A strange but impressive coincidence was the fact that, while only twenty-four hours before Perry M. Colson had told the people from the same stand that Major Thomas was the most earnest, most faithful and most loyal worker he had ever seen, the mayor modestly stated that "he had done the best he could, but the great victory was due largely to the efforts of his colleagues." This brought a cheer, as those assembled seemed to realize and grasp the fact that this earnest advocate of Gainesville's rights, now that the work was done, was willing that the honor should rest with those who had so faithfully assisted him. By way of parenthesis it may be mentioned that every member of the committee, as well as other citizens, were hard workers, and the honor is to be evenly divided, as all did what they could.

Hon. Robert McNamee.

Hon. Robert McNamee was on the rostrum, and the calls for "McNamee! McNamee! Let us hear from McNamee," brought him to his feet in a short while.

It may be mentioned here that Bob Namee has made himself solid with ople of Alachua county, if he was solid before, as was demon- to inspire the soul of any man, and which visibly affected the speaker. He made a fine talk of a few moments' duration, which was spent in eulogizing the committee in their earnest efforts, the people of Gainesville for their loyalty and educational patriotism, and the city generally as a desirable place in which to live, "because the people of Gainesville were the cleverest people as a whole on earth."

Mr. McNamee took occasion to impress upon his hearers the fact that the University of Florida, by act of the State Educational Board and the Board of Control, had been placed in Gainesville forever, and that the finest buildings in the State would be located here; that the people of Gainesville would have one of the finest colleges in the United States in which to educate the children of Florida and other States, and that in all, not only Gainesville, but the people of Florida should feel thankful and should congratulate themselves that the University is located here.

In conclusion, the speaker stated that in the wisdom of those who were in authority, it was deemed advisable to permit the holding of the next session of the University at Lake City, because of the fact principally that Gainesville could not properly take care of them, under the circumstances, as the buildings would not be completed in time. He assured the people that the selection as to location would be made in a few days, the architect would be here for the purpose of making plans, and as soon thereafter as the material could be placed upon the grounds work would begin. At the conclusion of his remarks Mr. McNamee was heartily cheered.

Mr. Wilson Cheered.

W. N. Wilson, a member of the committee and a very active worker all during the campaign, was with the party, and as the carriage arrived at the band stand three cheers were given him. Mr. Wilson was also loyal from a financial standpoint, as he was a member of the committee who signed to guarantee the money and land.

Banquet to Committee.

Saturday night a banquet was tendered to the committee at the girls' dormitory, East Florida Seminary, East Main street N., which was largely attended. Delicious punch was served by the ladies of the city, and altogether the evening was spent in a most enjoyable manner, the committee receiving the congratulations of a thousand or twelve hundred citizens, from the old resident down to the sweet little girl and interested boy, who expect to become University scholars. Several short talks were made, and a happier aggregation never got together than those assembled upon this occasion.

During the evening patriotic talks were delivered by Mayor Thomas, Hon. Robert McNamee, Syd L. Carter, Senator H. H. McCreary, Rev. S. B. Rogers and others.

Epworth League Meets In Denver.

Denver, July 8.—The thousands of Methodist workers who are attending the seventh international convention of the Epworth League were astir soon after sunrise today and the morning watch meeting of the Trinity church was large and spirited. Departmental conferences and summer assemblies and schools occupied the remainder of the forenoon and were followed by numerous noon meetings for prayer and exhortation.

Americans Want To See Sultan.

New York, July 8.—For the first time since Raisuli's raids on the road from Tangier to Fez two American tourists have undertaken the journey to the Moolsh court by direct overland route, says the Tangier correspondent of the Herald. They are James Roosevelt, a relative of the president, and J. C. White, son of the American ambassador to Italy. They are bearers of a latter of introduction to several court dignitaries.

Lake City Buildings Will be Used for University Temporarily.

THE PRESIDENTS WERE NAMED

Dr. Andrew Sledd Will be President of University, While Prof. Murphree Will Preside Over the Destinies of Female College.

The following report from Tallahassee, dated July 7, will prove of interest to The Sun readers:

One by one the members of the Board of Control are eliminating the difficulties thrust upon them in putting into practical operation the provisions of the Buckman law.

This afternoon the board named Dr. Andrew Sledd as president of the University of the State of Florida, and Prof. A. A. Murphree as president of the State Female College, each at a salary of $2,500 per annum.

The two presidents of Florida's leading institutions of learning have been asked by the Board of Control to suggest or recommend a faculty. They are now at work, and their lists will be submitted for the consideration of the members of the board within the next few hours. When these faculties shall have been agreed upon, together with those for the School for the Deaf and Blind and the Colored Normal School, the "rush work" before the Board of Control will be completed.

When in joint session this morning the members of the two boards took action regarding the temporary location of the State University.

At Lake City Next Term.

It was agreed that for the coming scholastic year the present university buildings at Lake City will be used. It was not deemed wise to attempt to move the delicate and valuable apparatus to Gainesville to put in a temporary building, but to continue the university work for another year at Lake City, so as to give the Board of Control time to get the buildings ready at Gainesville that instruments and other apparatus may be moved but once. This decision will also aid in many other ways, and there will be a practical continuance both at Lake City and Tallahassee of the work heretofore conducted and under the supervision of the same presidents.

School for Deaf and Blind.

At the joint meeting the Governor was authorized to appoint a committee of three to visit Lake City and ascertain whether or not the School for the Deaf and Blind was desired at that place, and also to proceed to St. Augustine and obtain a deed to the additional twelve acres of land in the event that the boards should determine to keep the school there permanently.

Governor Broward appointed Mr. Holloway of the State Board of Education and Messrs. Bryan and Adams of the Board of Control as such committee.

It is believed that Lake City will not ask for the school, in which event it will remain permanently in St. Augustine.

Fire Causes Panic In Court.

St. Louis, July 8.—A lighted match carelessly thrown on the floor of the criminal court of correction room, which had been previously covered with a disinfecting fluid which was inflammable, started a fire today that resulted in a general panic at the Four Courts building, but no body was hurt. The flames spread across the floor and up the walls rapidly. Persons in court rushed out and the prisoners in the cage frantically screamed and tried to break through the bars, fearing cremation. The fire was extinguished with little damage having been done.

Tobacco Salesman Dies In Knoxville.

Knoxville, Tenn., July 8.—C. C. Dromgooe, manager of salesmen for the R. A. Patterson Tobacco company, of Richmond, Va., was found dead in his bed at the Cumberland hotel here this morning. He arrived here last night and intended to start on a vacation trip this morning. Heart affection is assigned as the cause.

Will Build Big Warehouse.

San Francisco, July 8.—It is stated that E. H. Harriman, with the co-operation of H. E. Huntington is preparing to build at San Pedro in the southern part of California, quays, docks and warehouses for the accommodation of steamships to ply between San [illegible] Japan and China and

To Start Big Iron Mill.

Sharon, Pa., July 8.—It was anounced officially today that the company's continuous sheet mill of the American sheet tin plate company at Sharon will be placed in operation next week. The mill is one of the most complete in the country and represents an outlay of about $1,500,000. It was built three years ago, but never operated. About 500 men will be employed.

Powers Case In Federal Court.

Louisville, July 8.—A special from Maysville, Ky., says that Judge Cochran, of the United States district court, has taken jurisdiction in the Caleb Powers case. This means that the case will be tried in the federal court.

The real estate agency of J. W. Wilkinson, Daytona, has recently sold a tract of turpentine land embracing 4,800 acres for the Schantz estate to Walter F. Cochran of Jacksonville, president of the Consolidated Naval Stores Company, Savannah, Ga.

GAINESVILLE'S RESPONSIBILITY.

Gainesville has been selected as the site for the new University of Florida, and will continue to be, as she has been for fifty years, the educational center of the State. The glad news was received in this city by wire from Tallahassee and business was practically suspended throughout the day, so great was the joy and gratitude of the people. This culmination is a great surprise to those people in Florida who thought politics was to play an important part in the selection of the site, and they are enabled to see, now that their Governor, Napoleon B. Broward, has redeemed his oft-repeated promises of fair play and listened to the voice of the people, that Gainesville was almost unanimously the choice of the masses. With one or two exceptions every newspaper in the State that expressed itself on the question endorsed this city, the State Convention of Boards of County Commissioners, the State Good Roads Association, many county boards of education endorsed her, and thousands of letters and telegrams poured in upon the Governor and other members of the Board, from all parts of the State, urging them to put the University at Gainesville. The task of selection was thus rendered easy, for if Gainesville had not been selected they would have run counter to the expressed wishes of a great majority of the people they were chosen to serve.

Gainesville's responsibility in this matter is tremendous. She is now the chosen guardian and instructor of the sons of Florida. The people, with magnificent expressions of confidence, have chosen her to guard the morals of their sons, train their minds and equip them for the great life struggle which confronts us all. Her impress, the stamp of her character, and the controlling motives of her people, will be upon them all. None can escape it. Every citizen of Gainesville, no matter how humble, must share in this responsibility before the Great Father, who, in His wisdom, permitted us to assume it, for He is a factor in the development of the character of the community.

Does Gainesville realize how sacred is the trust reposed in her by the people of Florida, and will she be faithful to it? Let the past be witness that she does and will, and on behalf of the municipality of Gainesville we make this pledge to the people of Florida: That the welfare of the University entrusted to our keeping shall ever be our first concern; that we will guard most zealously the morals of their sons; that their local environment shall be as perfect as weak man can make it; that the social atmosphere they move in shall be clean and wholesome, and that no local condition shall ever be tolerated that would bring discredit upon the institution, or put obstacles in the way of its success.

STATESMAN OF THE OPEN DOOR

John Hay served as Secretary of State under two Presidents for a period of seven years, says The Wall Street Journal.

He was the thirty-sixth to hold this great office, and only four of his predecessors—James Madison, John Quincy Adams, W. H. Seward and Hamilton Fish—held the position longer. Their tenure was eight years, but Mr. Hay would have broken the record if death had not ended his career while still in service.

The office of Secretary of State has a history scarcely less distinguished than that of President. There have been twenty-five Presidents, of whom it may be said that, not counting the two still living, there have been only six—Washington, Jefferson, Jackson, Lincoln, Grant and McKinley, whose names shine with brightest lustre through the years; while the names of Jefferson, Marshall, Clay, Webster, Calhoun, Seward, Blaine and Sherman appear in the list of Secretaries of State, in addition to those of James Madison, James Monroe, John Quincy Adams, Martin Van Buren and James Buchanan, who also served as Presidents, and of Edmund Randolph, Edward Everett, W. L. Marcy, Lewis Cass, and in later years Black, Fish, Evarts and Bayard, who were scarcely less distinguished. Indeed it may be said that there are more names generally remembered by the people in the list of Secretaries of State than in the list of Presidents.

It was Mr. Hay's distinction also to have served in another office which has been made great by a succession of great men. He was ambassador to England long enough to have made a distinct and favorable impression in a company where only high intellectual power counts. Among his predecessors as ambassador were such men as James Monroe, J. Q. Adams, Rufus King, Albert Gallatin, Washington Irving, Martin Van Buren, Edward Everett, George Bancroft, James Buchanan, Charles Francis Adams, John L. Motley, James Russell Lowell and Edward J. Phelps, men distinguished in letters, politics, law and diplomacy.

Mr. Hay was the peer in intellect, character and achievements of all these men. It is his special distinction to have been a leader in the "new diplomacy"—the diplomacy of openness and fair dealing. He will be known as the statesman of the "open door," and his death will be deplored in other countries besides ours.

HON. W. M. HOLLOWAY.

Among the many friends throughout the State to whom we feel obligated, there is none who is more deserving of our honest esteem than State Superintendent of Public Instruction W. M. Holloway, and his devotion to Gainesville has shown that although he has gone from our midst into the State at large, he does not forget his old friends.

During his residence here he became familiar with the people and their sentiments, and although he has been away for some time and had an opportunity to become familiar with the sentiments of nearly every locality in our great State, he turns to Gainesville as the city best suited for our State educational institutions to be located, regardless of any political preferment.

In his supervision of the State schools he is ever watchful of their best interests, always encouraging the ablest teachers and using all means in his power to place Florida at the head of every Southern State in the matter of education.

Mr. Holloway is always watchful of every method that will aid in building the most solid foundation for our school system, and in these times, when new methods are being advanced each year, it is no small tax to keep an eye on the workings of our entire State and prevent any retrogade movement. But he has done all this and also kept up the advance with credit to the State and himself, winning much praise for the school system of Florida.

THE WEALTH CROP.

Writing early in April with the object of inculcating caution with regard to speculative operations, we called attention to the fact—sometimes forgotten—that all wealth comes out of the earth, and that the fate of the growing crops would be determined very largely in the ensuing four months, says The Wall Street Journal. More than half that time has gone by and it is now clear that the prospects favor abundant crops. The wealth crop of the United States—if we may use the word—consists of plants, animals and minerals. Leaving minerals out of the question and considering only plants and animals, it appears that every year the earth produces for the people of this country real wealth to an amount of between $4,000,000,000 and $5,000,000,000. For instance, what are known as the cereal crops are worth about $2,000,000,000 a year, of which corn accounts for one-half. Cotton, tobacco, hay, flax and wool accounts for at least another $1,250,000,000. Garden truck, fruit and farm animals bring the total well over $4,000,000,000 a year.

This is the foundation of all business of the world. Man must be fed three times a day or thereabouts, whatever happens. Gold is no use to him, coal is no use to him, iron ore is no use to him, railroads are no use to him until he is fed and clothed. The annual yield of food by mother-earth is the source of all industry. Abundance of yield means good times and vice versa.

It is, therefore, important to note that all now promises well from this point of view.

The celebration of the Fourth of July in Florida was more general than in any other State in the Union. The people of this State are to be congratulated for this manifestation of their devotion to the old flag and the loyal spirit manifested. Although the spirit of progress is manifested on every hand in the South, and cities and hamlets are struggling for supremacy, yet there was a cessation of labor on the Glorious Fourth and all joined hands and did honor to the anniversary of our natal day, and the inspiring patriotic songs seemed to fill all with a glow of pride that was manifest on every countenance on that day. Both old and young united in praising the Power that has made and preserved our Nation—spelled with a big N.

No city in Florida has had a more healthy growth in the past two years than Gainesville. The streets and sidewalks have been improved in many parts of the city, new business buildings have been erected, many handsome residences have been completed and more would have been, only for lack of material. Many more residences will be put up between now and the end of the year. We are just growing—there is no boom.

After expressing a genuine feeling of gratification in the selection of Gainesville for the location of the University, The Tampa Tribune says: "All this section of the State will join with The Tribune in expressing gratification that its claims have been recognized to a share of the benefits of the new educational deal and all Florida will join with Gainesville in building up a State University which will be a credit and an honor to the State."

The analyses that have been made of the waters of Boulware spring have shown it to be the purest of any in the United States, unless it be that of Poland Spring, Maine, and it stands next to that. When any one tells you that the water used in Gainesville is impure, wink at him.

A more liberal interpretation of the Chinese exclusion act on the part of President Roosevelt may mean a more liberal patronage from the Celestial Kingdom. Their money is all right, as it has holes in it so it won't hold microbes or any taint.

Paul Jones was taken for the first time by about 500 men of the United States navy Thursday. They waited a long time to be sure he was dead, before they undertook to take him.

The idea that the Santa Fe Railroad Company violated the law in regard to rebates, but that the officers should not be held responsible, if held good, would clear many a criminal act.

The Russian government is anxious for peace with Japan, and if all signs do not fail she had better begin to make peace with her own army and navy. There is no denying the fact that the people are thoroughly aroused at Russia's rotten system of government, and if they succeed in gaining the slightest foothold an insurrection of no ordinary dimensions may be expected.

RUSSIAN SITUATION GROWING SERIOUS

Rebellion Against Czar's Gov ernment Has Begun.

MANIFESTO HAS BEEN ISSUED

Authorities at St. Petersburg Seem Utterly Incapable of Handling Situation—Battleship Kniaz Potemkine at Port of Theodozia, Crimea.

St. Petersburg, July 7.—Inquiry at the admiralty this morning failed to confirm the report current last night that the Kniaz Potemkine had already left Theodosia. Admiral Wierenius, chief of the naval staff, informed the Associated Press that according to the latest advices the vessel was still at Theodosia.

"What will be done?" asked the correspondent.

"We cannot tell you," was the reply. "The whole affair is in the hands of Admiral Chouknin, and he has not communicated his plans to us. Admiral Kruger's ships were due to leave Odessa yesterday afternoon. They should now be arriving at Sebastopol."

"Do you think that on their arrival Vice Admiral Chouknin will dispatch the squadron to try to capture the Kniaz Potemkine?"

"We don't know what he will ddo. In my opinion the promptest solution would be to send a torpedo boat to sink her and I have advocated that course. The situation is grave. The ship is not in the hands of her crew, but in the hands of a revolutionary committee who went on board at Odessa. They issued a high sounding manifesto to the powers. They wanted to be considered insurgents. I presume their next step will be to ask for recognition as belligerents. They know their heads are forfeited and will stop at nothing. In the eyes of the law, they are outlaws and pirates. The first thing necessary is to make an example of the crew and restore discipline in the Black Sea fleet."

Admiral Wierenius said there was no truth in the report from Vienna that 400 Russian sailors had destroyed a cruiser and sought refuge on board a British steamer for Constantinople. No Russian cruiser, the admiral said, has been destroyed so far as he knew.

Inhabitants Leaving Theodosia.

Theodosia, Crimea, July 7.—The inhabitants are leaving the town in compliance with the orders of the authorities who fear that the mutineers of the Kniaz Potemkine will carry out their threat to open fire on Theodosia this evening. Only troops and officials remain here.

Strikers Granted Demands.

Cronstadt, July 7.—The dock laborers strike here has been settled, the commercial transport companies reducing the hours of work to nine hours per day and increasing their wages 10 per cent.

To Bridge Straits of Karquinez.

San Francisco, July 7.—As the result of a visit made yesterday by Secretary Taft to the Benecia, the straits of Karquinez, probably will be bridged by the Southern Pacific. Secretary Taft announced his approval of the project. He said: "The volume of transportation business has grown to such an extent that the bridging of the straits is imperative. The only problem is to erect a bridge that will be substantial enough to stand the traffic which may be put on and at the same time not interfere with navigation of the rivers. I am certain that such a bridge can be constructed."

Bakers' Marks

There is a story of an old lady who made up a batch of mince and apple pies.

Wishing to be able to distinguish one kind from the other she marked the mince pies **T M** for "tis mince" and the apple pies **T M** for "taint mince."

The baker's marks on the ordinary run of bakery products are of little more value for purposes of identification than the marks on the old lady's pies.

But HERE is a trade mark that really identifies—that enables you to distinguish the world's best baking—the Biscuit, Crackers, and Wafers made by the NATIONAL BISCUIT COMPANY. This trade mark appearing in red and white on each end of a package guarantees the contents to be of highest quality—pure, clean and fresh. To learn something of what this trade mark means try a package of either of the products mentioned below.

Lemon Snaps

An appetizing nibble with the flavor of the refreshing lemon. A revelation in modern baking.

Butter Thin Biscuit

Unique little biscuit, in much favor with those who want "something different."

Graham Crackers

ANOTHER FIRE IN NASHVILLE.

Third Big Conflagration in Ten Days. One Fireman Fatally Hurt.

Nashville, Tenn., July 7.—For the third time during the past ten days this city has been visited by a serious fire.

This morning at 2 o'clock the wholesale grocery house of Phillips, Webb & Co., was completely gutted. It was one of the largest houses of the kind in the city and carried a very large stock. The adjourning buildings occupied by H. G. Lipscomb & Co. and the Cheek & Neel coffee company were damaged by water. It is not known how the fire originated but incendiarism is strongly suspected.

George Rogers, a substitute fireman, fell four stories through an elevator shaft and was so badly injured that he will die.

The loss on the stock of Phillips, Webb & Co. is $135,000, and is fully covered by insurance.

The loss on the houses of Lipscomb & Co., and the Cheek & Neal coffee company, which is not large, is covered by insurance.

George Rogers, substitute fireman, injured din the fire this morning, died at noon today.

The loss on the building of Philips, Webb & Co. is $25,000; fully covered by insurance.

Hanged Himself In Church.

Malwaukee, Wis., July 7.—The body of J. M. Langtri was found hanging from the rafters in the Methodist church in White Fish Bay, a suburb. For about 10 years Langri was identified with a manufacturers' association in New York city. He was married in Newark, N. J., but owing to matrimonial troubles his wife, it is said, left him.

...e Inspector Is Unable to State Whether It Was Due to Mine Gas or Not—Men Were Working About 20 Feet Below Surface.

Uniontown, Pa., July 7.—As a result of an explosion today and the shaft of the Taylor Coal and Coke company at Searight, Pa., 6 mile west of here, ... men were killed and four injuredd, ... fatally.

Two of the dead were negroes and the other three were foreigners.

The men were working about 20 feet below the surface when the explosion occurred.

Mine Inspector Roby is unable to state whether it was due to mine gas or the small tank of gasolene which was located at the head of the shaft where the men were at work.

Other reports are to the effect that the accident was caused by a premature discharge of dynamite.

Fatal Mine Explosion.

Bluefield, W. Va., July 7.—By an explosion in ahe Tidewater mine at Vivian, 20 miles west of this city, nine miners, all of whom were Italians, were injured and two of them died later in the hospital, while three more are in a precarious condition, with slight chances of recovery. All of the men were burned badly. The dead are Lee Mozzille, Antonio Bupitomio. The Tidewater mine is located about 30 miles from Vivian, W. Va., about 30 miles from Bluefield, and is owned and operated by the Tidewater Coal and Coke company.

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." He will soon begin the cutting of lumber for same at his own mill, and will begin building as soon as this material can be delivered. It is said that the building when completed will have cost about $10,000.

The Honorable Board of County Commissioners have had a siege of meetings this month. The board convened on Monday for the purpose of receiving and revising the tax books. They were in session on Tuesday and Wednesday in regular order, and on Thursday again convened to hear the report of Ferdinand Bayer, who had been employed to audit the books and accounts of the various county officers.

From Saturday's Daily Sun.

Miss Donnie Strickland of Waldo was shopping in the city yesterday.

Rev. C. F. Parker of LaCrosse spent yesterday in this city as the guest of friends.

M. B. Davis, a merchant of Hague, was transacting business in this city yesterday.

W. T. Wilson of Alachua has returned to his home, after a brief but pleasant visit to W. O. Tison.

F. S. Osteen, the naval stores operator of Micanopy, was a business visitor to this city yesterday.

Rev. Mr. Holshouser of Windsor was among those who favored Gainesville with a visit yesterday.

Miss Ethel Jolly, a charming young lady of Waldo, is in the city on a visit to her aunt, Mrs. J. E. Futch, East Church street.

T. W. Waits of Grove Park and O. W. Maines of Monteocha were among those who favored Gainesville with a visit yesterday.

Mrs. Ella Rives and charming little daughter, Miss Kathleen, were in the city from High Springs yesterday. They spent the day with relatives.

George Smith of Arredondo was a visitor to Gainesville yesterday. The friends of Mr. Smith will be glad to learn that his son, S. Spalding Smith, who has been indisposed for some time, is greatly improved.

Notice is hereby given that I will not be responsible for any debts contracted by my wife, Mrs. Annie E. Bailey, and persons crediting her or trading with her, do so at their own risk. JAMES S BAILEY, Newberry, Fla., July 7th, 1905.

R. H. Beck of Chiefland, Levy county, is in the city. Mr. Beck has been at Komoka for the past few weeks, where he has been in the employ of the Griffin Brothers Company, extensive horticulturists and nurserymen. This firm shipped a large number of peaches during the season just closed.

T. R. Pickett of Newberry was in the city on business yesterday. He is a member of the firm of Pickett & Son, manufacturers of lumber, who own a fine plant at Duluth, near Newberry. The plant is closed for the present, owing to the scarcity of timber, and the probabilities are that the firm will secure a new location. Mr. Pickett states that "things have been tolerable" at Duluth for the past few days. Immediately following a shooting last Saturday night, in which a negro was seriously wounded by another, there was a marriage, Robert Hamilton having made Amelia Scott happy by taking her unto him as a wife. All parties are colored.

F. H. Herrin of Marianna was in the city for a few hours yesterday. Mr. Herrin was formerly of Micanopy, where he was engaged in the naval stores business with F. S. Osteen. He is still interested with Mr. Osteen, but is also conducting a profitable business of the same character at Marianna. He has at his Marianna farm eleven crops, employing sixty men. He is well pleased with that section, which he declares to be the most prosperous he has seen for some time. The people of Jackson county are progressive, and expect soon to begin the erection of an $85,000 court house at Marianna, the county seat, which will be the finest building of the kind in West Florida. While here Mr. Herrin had his name enrolled on The Sun subsbription list.

From Sunday's Daily Sun:

J. A. J. Strickland was trading in the city yesterday.

Berry Bryant of Hague was trading in the city yesterday.

J. C. and J. M. Haile of Alachua were among those who came to Gainesville yesterday.

George Tillis of Chiefland was in the city yesterday and made The Sun an agreeable call, renewing his subscription.

W. C. Small of Hague, one of the leading citizens of that section, was transacting business in this city yesterday.

F. E. Cellon of Hague, B. J. Potter of Tioga and H. M. Sherhouse of Micanopy were among the visitors to this city yesterday.

Green Chaires of Old Town, Wm. Tillis of Lakeland and J. A. Parrish of Hague were among the visitors to Gainesville yesterday.

Dr. C. F. Dawson, the veterinary at Spring Park Farm, goes to Ocala Monday on business connected with the State Board of Health.

When you want a pleasant laxative that is easy to take and certain to act, use Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

Mr. and Mrs. A. L. Craig, who have been residing at 501 Lassiter street for the past few months, left yesterday for their old home in Bellows Falls, Vt.

Great Bargains—Two full outfits, complete, one large and one small shingle mill, with boilers, engines, shafting, pulleys, etc., at a sacrifice. Geo. W. Moyers, Gainesville, Fla.

W. C. Hague and son, DeWitt, of Hague were in the city yesterday. Mr. Hague states that his section could stand more rain, as crops, especially sugar cane, are suffering.

C. W. Stalls, formerly of Monteocha but now residing near Wauchula, where he is engaged in farming, was in the city yesterday. He was en route to his old home, where he will spend a short time with friends.

Mrs. F. R. Seawell and son, Frank, left yesterday for St. Petersburg and Clearwater Harbor on a visit to friends. They were accompanied as far as Rochelle by Mr. Seawell. Friends wish them a pleasant sojourn.

Mr. and Mrs. W. A. McGriff of Wauchula have returned from a pleasant visit to Atlanta. They are en route home, and stopped over for a day or two as guests of the latter's parents, Mr. and Mrs. P. M. Colson.

C. D. Powell of Lake City is among the visitors to this city. Mr. Powell is a progressive citizen of that place, but is contemplating moving soon with his family to Gainesville, as he believes in a University town.

A. W. Taylor and son, Wylie, returned yesterday from Tyler's mill, near Newberry, where they have been for the past few days. Mr. Taylor has a contract for surveying a large body of timber in that section for the Tyler Lumber Company.

P. M. Oliver has returned from DeLand, where has been for the past few weeks with his son, A. B. Oliver. "Uncle Pet," as he is familiarly known, has many friends here who are always glad to welcome him, and trust that he will remain in Gainesville for an indefinite period.

The addition to the home of Col. E. C. F. Sanchez, East Main street N., is nearing completion. It consists of an elegant front room, second floor, and will add a great deal to the appearance of the building. The work is being done under the supervision of Contractor Hall.

The Sun unintentionally omitted the name of T. W. Shands from the committee who worked so faithfully in the interest of Gainesville at Tallahassee in the matter of locating the State University. Mr. Shands has been as loyal as any man was ever made, and has stood by Gainesville with other members of the committee to the last. His efforts are appreciated by every citizen of the city of Gainesville.

PRYOR, TENN., June 1, 1901.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: I have suffered several years from kidney and bladder trouble and have tried a number of preparations, but can truthfully say that nothing has proved so effective as your Texas Wonder, which I can truthfully recommend. GEO. W. CLAIBORNE.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

FREE ICE WATER.

Marshal Pinkoson Secured Subscriptions to Pay for a Ton of Ice.

Marshal Charles Pinkoson, with a commendable spirit, disliked very much to see the good people of this city and those who come here as visitors deprived of the privilege of a free glass of refreshing ice water, with the result that he just canvassed the city for funds sufficient to pay for a ton of ice, and the following citizens paid 25 cents each:

L. W. Fennell, Geo. W. Hyde, Chas. Pinkoson, J. M. Rivers, W. L. Hill, W. E. Dow, W. B. Taylor, A. M. Cushman, J. D. Matheson, J. M. Dell, W. O. Tison, J. P. Bauknight, L. L. Hill, W. L. Beck, Sol Warren, Wm. Bradford, G. T. Kennard, W. T. Shands, E. A. O'Neill, W. W Avera, E. E. Cannon, Geo. K. Broome, H. G. Mason, Geo. I. Doig, W. S. Dorsey. R. B. Livingston of the Diamond Ice Company donated 100 pounds of ice.

The public will appreciate the generosity of these citizens, as it shows a spirit of enterprise which cannot help but win out in the end.

JOHN THOMPSON EXPLAINS.

Declares the Unfavorable Reports About Him Were Untrue.

To my friends, the public and the man who circulated unfriendly statements about myself:

There is hardly a man in the world but has an enemy.

I had business that required my absence from my home, and this enemy, taking advantage of my absence, did me the mortifying injustice of trying to slander me by circulating untruths about me. These stories were told to me by my friends when I came home, not believing them themselves. They were of that character that was derogatory to the interests of Gainesville in securing the location of the University at Gainesville.

I say to my friends, to the public, and particularly to the man who made these statements, that they are false and defamatory in every particular.

Gainesville is my hame, and no traduce of character can run me away from my home, and I will remain here at my pleasure. I am respectfully,

J. J. THOMPSON.

Gainesville, July 8th, 1905.

J. J. Finley Chapter.

A most enjoyable occasion was the meeting of the J. J. Finley Chapter, U. D. C., on Thursday last at the residence of Mrs. Chas. C. Hudson. After disposing of the routine business, a well prepared program consisting of music and recitations was rendered. Various solos and duettes were beautifully rendered by the Misses Wimberly, Padgett, Douglass, Dupree and Gerrald. These were interspersed with recitations by Miss Mabel Voyle, who showed that she was quite in her element. The entire program was immensely enjoyed and at the close delicious refreshments were served.

In addition to the members of the Chapter, quite a number of other guests were present, and all bade the hostess farewell assured that she knew how to entertain most charmingly.

Albright Buys More Property.

D. A. Albright, who recently arrived in this city from Terre Alta, W. Va., evidently has a great deal of confidence in the future of Gainesville, since he is buying considerable property in this city and vicinity. His latest purchase is the farm of S. M. Mixson, near the waterworks. This farm comprises thirty-eight acres of fertile land, cleared and under fence, and is one of the most valuable tracts in that section.

J. R. Williams of Alachua, one of the leading business men of the county, was among those registered at the Brown House yesterday. Mr. Williams is very enthusiastic over the victory recently made by Gainesville in the matter of locating the State University. He is very influential throughout the State, and many friends came to the rescue in recommending Gainesville as the proper place for the University.

Mrs. Rosa Waters, who has been for the past few days visiting relatives at Fitzgerald, Ga., has gone to Brunswick, Ga., where she will spend a few days with relatives.

Attention, Ye Needy.

For home purchasing contracts or loans in the Standard Guarantee and Trust Co. of Washington, D. C., write to Geo. W. Moyers, or call at the "Racket Store" of J. C. Evans in Gainesville. If I am not there, Mr. Evans will wait on you for me.

GEO. W. MOYERS.

STATE NORMAL TO OPEN TOMORROW

Big Crowd of Teachers From Every Part of State Expected.

A FINE FACULTY IS SECURED

Some of the Most Noted Teachers of the State in Various Departments Have Been Secured, and the Chances Are That Term Will be a Fine One.

From Sunday's Daily Sun.

As already announced in The Sun, the State Summer Normal School will begin Monday in the East Florida Seminary barracks, and the possibility is that there will be a number of students. While none have so far arrived, several are expected in tomorrow and during the week, and before Saturday it is believed that quite a number will be in attendance.

This school will be open to all teachers in the State, and a most competent faculty has been appointed in the various departments, including Captain Geo. M. Lynch and Prof. W. L. Floyd of this city.

The school term will be marked with unusual interest, owing to the fact that a higher standard of education will be required under the new Buckman law.

All students of the East Florida Seminary, particularly of the Sophomore, Junior and Senior classes, will be qualified to enter the normal classes. This will give those who desire to prepare for the University classes a golden opportunity to review studies they may be deficient in.

A large attendance is desired.

THE NEWS FROM WALDO.

Interesting Budget of News from That Lively Burg—Personals.

Waldo, July 8.—E. R. B. Kite is indisposed. His numerous friends and acquaintances hope for his speedy restoration. For the present Truman Kite is in charge of the yard at night.

T. O Kennard, proprietor of Waldo's livery stables, lost a valuable horse Thursday night by colic.

Engineer J. H. Ingram of the Cedar Key local is spending a few days at the home of his younger days in Georgia.

The watermelon crop in this section has considerably exceeded the demand this season. Growers do not ship melons from this point—took their lessons and their medicine years ago.

Mr. Safford of South Dakota has been on a visit to Waldo, making final disposition of the effects of his brother-in-law, the late J. C. Hall. Mr. Hall left insurance amounting to $6,100 as a legacy to his only daughter. The little girl is now in South Dakota, the former home of her parents.

Dr. Maines has recently located in Waldo for the practice of his profession.

After an absence of a year or more M. I. Rice, the jeweler, has returned with his family to Waldo for good or better, bad or worse. Mr. Rice went to Mexico to seek his fortune, and was fairly successful in a business sense; but every time a current struck his "think wire" the switchman would cut in "Waldo," and—a yearning yawn! To be plain about the matter, he put the skates on and "lit a rag" for these parts. No fatted calf to slay, but Waldo hugs the prodigals to her placid bosom and welcomes them, just as she will continue to do to all wanderers that live to return.

Mrs. Dr. P. D. Hicks is convalescing after a protracted illness.

Waldo regrets to lose as citizens R. W. Campbell and family. Mr. Campbell was one of the early settlers of the town, and it was not without regret that he parted from the scenes and associations of many years. He has sold his property at Waldo and is now a citizen of Arcadia. We occasionally lend out some of our good people and get them back with interest.

The Steamer Alert, plying between Waldo and Melrose, has recently undergone a thorough overhauling, and has resumed her regular trips.

Waldo sends greetings and congratulations to Gainesville on her signal triumph over strong opposition in the acquisition of the University. It marks a noteworthy achievement in the history of a progressive little city.

Remember the Gainesville & Gulf has round trip rates to White Springs on Sundays at only $1. Train leaves Gainesville at 6:30 a. m., returning at 9:30 p. m., and affording a whole day at this favorite resort. Cheaper than hiring a buggy, and passengers are able to spend a day on the [illegible]
